

Aviation Safety Training Vendors

Following is a sample listing of sources of aviation safety training available to meet the requirements for qualified non-crewmembers flying on aircraft owned or operated by NOAA. This list is provided for your convenience to obtain the required training, and is not an endorsement of the listed vendors. It is not intended to be all-inclusive, and other vendors may be utilized. NOAA personnel seeking training from any source are responsible for ensuring that the training provider covers the subjects outlined in NOAA's Minimum Training Standards for the type of training they are receiving..
